No problem...and yep, threw the loggers back in the well. There is a great watering hole in Lander the next time you guys are in this area.....always a good place to pour down a pitcher or two.

Greetings Jerrod,

Great Job! We really appreciate the help with this one. I assume you threw the xds back down the hole?
I look forward to buying you a beer sometime in the not too distant future.
Best regards,
r^3

Hi Randall-

I was able to get out to MW02 yesterday. All looked OK. WL = 644.72' bl TOC

I've attached the downloaded data from both the Barologger and the LevelTroll, and I have a copy in case for some reason they do not come through. Have a good one.

Jerrold
